## FOOT CARE GALLERY | HEART OF WILLOUGHBY

I'm Alessya Oreb — a **Canadian** podiatrist with a BA (Hons) in Kinesiology and Applied Health Sciences, followed by an Advanced Degree in **Podiatric Medicine** from The Michener Institute of Toronto.

I am now a local resident of Willoughby, NSW, and a proud mom of two.

I work closely with GPs, pharmacists, nurses, and allied health teams to ensure every patient receives integrated care that supports their overall health—not just their feet.

## ABOUT ME

### Why Work With Me

Being located directly inside Heart of Willoughby's new medical facility allows seamless, coordinated care.

### SKILLS

- Musculoskeletal pain programs: Focused on improving function and reducing pain
- Nail and skin care: Management of thickened nails, fungal nails, corns, calluses, tinea, and other conditions
- Ingrown toenails: Surgical and non-surgical options
- Custom Compounding Formulations: In collaboration with local pharmacists

## WHAT I OFFER

### I WORK WITH PATIENTS COVERED BY:

- Medicare referrals (non-bulk billed)
- NDIS
- My Aged Care Packages
- DVA
- All major health funds
- Workers' compensation

Unit 1/253 Penshurst St. Willoughby

BA (HONS) KINESIOLOGY, APPLIED HEALTH SCIENCE, ADV. PODIATRIC MEDICINE

I am Alessya Oreb, BA (Hons) Kinesiology, Applied Health Science, Adv. Dip Podiatric Medicine, and the founder of Foot Care Gallery and GermGuard™.

My career in podiatry spans two countries, encompassing experience in both hospital settings and private practice. These experiences have given me a deep understanding of patient needs across all stages of foot health, from acute care to long-term management.

In 2024, I founded GermGuard, a small business dedicated to supplying podiatry clinics across Australia and New Zealand with clinically-proven foot care solutions. Our range includes antifungal treatments, diabetic creams, foot care supplies for conditions such as hammer toes and bunions, and medical-grade footwear — all tailored to support comprehensive podiatric care for the Heart of Willoughby community.

At Foot Care Gallery, my approach combines evidence-based clinical care with personalised solutions. I am thrilled to welcome another Podiatrist Joanne De Belle to our team, bringing additional expertise and support to our patients. Together, we aim to provide exceptional, holistic foot care that addresses the unique needs of every individual.

Outside of work, my family is central to my life. My husband, a local builder, grew up in Willoughby, and we are proud to be part of this close-knit community. We have two children, who will be starting at St Thomas in 2026, and we love spending time together fishing, at the beach, and enjoying all that our local area has to offer.

I am passionate about creating a clinic that not only delivers expert foot care but also reflects the values of connection, community, and personalised attention — a place where patients feel supported, informed, and cared for throughout their foot health journey.
